This is a sample of SUPERIOR MANIFOLD, Substance 8, REGULAR WHITE, Smooth Finish.

Printed by offset on a Miehle 25 x 38 two-color sheet-fed press

e is for Esleeck — and for everything that the name Esleeck represents in papermaking: experience, efficient and progressive operation, quality products, service to customers.

Founded in 1900 by the late Augustine Washington Esleeck, the Esleeck Manufacturing Company pioneered in the manufacture of cotton content onion skin and manifold papers. The only firm specializing in their field, Esleeck has concentrated all its efforts, for more than 60 years, on improving its onion skin, manifold and other thin business and technical papers. Esleeck Thin Papers have been long recognized as "the standard" by which all such papers are judged.

Research and study of thin paper requirements and formulations, and the use of equipment especially adapted for our particular manufacturing needs, enable us to provide our customers with papers which are consistently uniform in quality, weight and finish.

Wherever a thin paper can be used, the logical choice is an Esleeck paper:

Light weight — for efficient typing and economical mailing.

Strong — for safe erasing and handling.

Durable — providing permanency for valuable data.

Minimum bulk — for practical filing.

IDEAL for office and factory records, forms, letterheads, copies, advertising pieces, direct mail and many other uses.

"The most copied thin papers in America"

ESLEECK MANUFACTURING CO.
TURNERS FALLS, MASSACHUSETTS

... is for carbon copies

C . . . is for crisp, clear carbon copies. With Esleeck Thin Papers at least eight clear copies can be made at a time. And these copies will make a fine impression because they're on a tough cotton-fiber onion skin made from carefully selected raw materials which are processed in a mill designed for manufacturing onion skin papers.

It is easy to sell Esleeck Thin Papers because they have the characteristics your customers are looking for — fine appearance, light weight, extra strength. Notice the watermark. It is always sharp and legible, an indication of the extra care which goes into the making of Esleeck Thin Papers.

...is for the jobs Thin Papers can do

The list is long because there's almost no end to the places where a stronger, lighter and thinner paper can't do a better job. No wonder Esleeck Thin Papers are the most copied thin papers in America.
